Guidelines for Authors

Dear Author,

 Kindly refer these guidelines while preparing your paper.

1. Abstract should contain the following sub-headings:

  Objectives:

  Methods:

  Findings:

  Novelty:

  Keywords:

(Abstract must be enriched with quantitative data; not mere statements/ claims)

2. Introduction must be a para with about 10 most recent and relevant references to the topic (2022-2020);

The research gaps among the published works must be technically analysed and justify why and how the present work is intended to fill the gap.

3. Methodology: must include details of database/ dataset used/ how algorithm modified; what are the parameters considered/ sample size/ how it was compared with Gold standard methods; what are the internal controls or standards for performance comparison.

4. Results and discussion section; must include comparative aspects of current results with the already published reports in terms of accuracy/ cost/ benefit/ reliability/ docile/ advantages

5. Conclusion must exhibit novelty of the findings and should connect how the objectives are met; how the present work fares better than known / published works. Enrich conclusion with novelty/ unique findings/ quantitative or qualitative data; add limitations and future prospects

6. References: Must not more than 25; 90% of it should be between 2022-2020; please exclude references down from 2018 except in methodology.

Include DOI number/ publication URL for each reference
